Facilities Management Department Notice
Campus Facilities Master Plan

Description:

The Campus Facilities Master Plan guides the future of facilities projects over the next two decades. The University has been working on different concepts since March 2019.

Open forums are scheduled for next week to present the concepts and receive your input.

Participation from the entire campus is strongly encouraged to ensure that the final plan considers everyone's input and comments.

If you are not available to attend the open forums, the presentation can be accessed on the Facilities Management Department website.
