

The administration has been in constant conversation over the past several weeks on how we can enhance our mission to provide diverse and meaningful experiences for all members of our campus community. As part of Millersville University's efforts to create a welcoming, inclusive campus community, various diversity-related professional development opportunities are being created to enhance the awareness, knowledge and skills of faculty, staff and students. We want to ensure that all of our faculty, staff and students feel safe yet empowered to express themselves in an atmosphere of civility. A variety of educational opportunities will be offered. While some trainings have already occurred, several departments are collaborating to create a broader range of programs that can be implemented with the start 2017 fall semester.

The planning committee members for developing training opportunities for faculty and staff include Mr. Roger Bruszewski, Mr. Tchet Dorman, Mr. Dwight Horsey, Ms. Jasmine Whitlow, Dr. Karen Rice, Dr. Kathleen Walsh, and Mrs. Melanie DeSantis.

The diversity education task force for students will include: Mr. Brian Hazlett, Dr. Michelle Perez, Mr. Steve Knepp, Mr. Christopher Jachimowicz, Mr. John Hearn, Ms. Jasmine Whitlow and Mr. Tchet Dorman. The group's charge will be to develop multicultural and intercultural programming and training for our students from orientation to graduation.
