FOR IMMEDIATE RELEASE

Dear Millersville students and community,

Justin Pierre has officially resigned as President of the Student Senate of Millersville University effective April 6, 2017.

The board would like to thank Justin during his tenure as President. He succeeded in completing major goals he set forth at the beginning of the year. We wish him luck in all his future endeavors.

After each vice-president respectfully declined the position, as per our organization's bylaws, we are pleased to say that Kiefer Luckenbill, our current Chief Justice and President-Elect will be taking over as Acting President to finish the rest of the 2016-2017 academic year. We believe that Kiefer will carry out the duties of President with as much energy and dedication as is expected of any leader or Senator of this organization.

The Student Senate is a strong organization and we are confident that we will be productive in all of our goals – to advocate for your concerns and support all students in their academic and extra-curricular activities.

We look forward to the rest of the semester and everything else we have planned to achieve in the relatively short time we have left. We thank every one of our Senators and Executive Board members for their continued hard work and dedication to make this organization what it is.

Sincerely,

Your Student Senate
