

Dear Students, Faculty and Staff,

Thank you and congratulations for another outstanding celebration of student scholarship and creativity – that wonderful event we call **Made in Millersville!**

I was fortunate enough to host a number of our donors for a pre-event reception on Monday evening, and I share with you that those who attended were amazed at the breadth and depth of the presentations. I have no doubt that those who attended on Tuesday felt the same. I cannot begin to express to you the pride that I feel in the student accomplishments and the dedication of the faculty and staff who supported them in this endeavor. Made in Millersville is a wonderful showcase for our students' creativity, innovation and talents.

To those of you who invested untold hours in arranging the logistics of this event – thank you.

To those of you who challenged our students to reach beyond their comfort zones and tap into the wells of their imagination – thank you.

And to our students who continue to astound us by performing above and beyond what we already expect of you – congratulations!

Well done everyone!

John M. Anderson, Ph.D.
