

Boil Water Advisory Lifted

The Boil Water Advisory for the Millersville area has been lifted.

The water is safe to drink, the problem has been corrected and you are no longer required to boil your water. Run the cold water for 2-3 minutes. Flush out any automatic ice makers. Drain and refill your hot water heaters if set below 115 degrees and run water softener through a regeneration cycle.

For more information, call the water quality laboratory at 717-291-4818 between 7 a.m. – 4 p.m.
