Construction Timeframe:

*Beginning Date: May 15, 2017 7:00 a.m.
Ending Date: June 30, 2017 3:00 p.m.*

Traffic, Parking and Building Impact:

After each device is individually tested, a building-wide fire alarm is required. This building wide test will last 15 to 20 minutes. Scheduling of this test will be coordinated with building occupants in an effort to minimize impact.

Please email MU Facilities (mufacilities@millersville.edu) by May 11, 2017 if there are specific dates or times that are not supportable for your building.
