

## **Dr. Susan Northwall**

It is with great sadness that we say goodbye to a friend and colleague, Dr. Susan Northwall, who passed away Tuesday evening, May 9, 2017.

Dr. Northwall was the Medical Director at Millersville University's Health Services from 2009 – 2015. She brought unity during a time of transition, creating a caring environment for students, faculty and staff. During her years at the university, Dr. Northwall transformed Health Services into an efficient, high-quality healthcare environment. She was instrumental in the implementation of Electronic Medical Records and institutionalizing self-care for students.

Dr. Northwall worked closely with others on campus, creating connections with individuals as well as departments. She fashioned an environment where students could feel understood, cared for and treated with compassion.

In 2011 Dr. Northwall led the way for the establishment of the Breast Cancer Awareness Program, educating college-age men and women about breast cancer.
