Re: AED and CPR Training – Fall Semester 2017

You can still sign up for one of the free AED/CPR training classes being offered in November. You only need to attend one of these 3-hour training courses to become certified in how to use an Automated External Defibrillator (AED) and how to perform Cardiopulmonary Resuscitation (CPR). Training is conducted by certified and experienced American Heart Association (AHA) AED/CPR trainers. Class size is limited to no more than 20 per class. We still have 40 openings so sign up now to reserve your spot!

Light refreshments will be provided.

Contact Andrew Yarosh at ajyarosh@millersville.edu to schedule or contact Patrick Weidinger if you have any questions at Patrick.weidinger@millersville.edu.
