

Exploring the World of Science

March 24, 2018

- Millersville University will host the 11th annual PA Central Region Science Olympiad, with over 750 student participants from 52 schools.
- Middle school and high school students will compete in 23 different events for the chance to proceed to the state tournament.
- Science Olympiad is dedicated to improving the quality of education in the STEM fields, to bringing science to life for the students, to providing real-life challenges to be surmounted with teamwork, cooperation and planning, and to providing students the chance to be recognized for their accomplishments in the sciences.
- The event is a fun, all-day competition that engages students in lab-based, research-based and engineering-based problem solving.
