SPECIAL PREMIERE!

Today, most people with intellectual disabilities are living in the community, but does living in a home within the community mean you're a part of it? Going Home, a follow up to WITF's 2016 documentary, *i go home*, examines what home means to people with intellectual disabilities and their families.

Are we there yet?

Talk-Back with the director following the film

intelligent lives

Three young adults with intellectual disabilities challenge perceptions as they navigate high school, college, and the workforce. Academy Award-winning actor and narrator Chris Cooper contextualizes the lives of these central characters through the personal story of his son Jesse, as the film unpacks the shameful and ongoing track record of intelligence testing in the U.S.
