The Learning Institute "Advancing Global Social Justice and Human Rights"

Millersville University SCHOOL OF SOCIAL WORK BASW-MSW-DSW

Registration Now Open

for the 6th Annual Global Well-Being and Social Change Conference

April 24-26, 2019

We cannot realize racial justice until we are willing to talk about the injustices and inequities that exist across all levels in our society. According to the Southern Poverty Law Center (2018), racial justice is fairness for all people, promoted by both individuals and government. Through your attendance at this year's conference, we hope to spark conversations and ignite action as you identify ways to promote social justice, everyday by positively affecting your spheres of influence.

CE and ACT 48 credits available!
