

Meeting Student Needs

The student community at Millersville University is of utmost importance. We value the physical, mental, and emotional health of all students, and take pride providing a safe and supportive learning environment. **In order to accomplish this goal, we must conduct research to better understand our students' needs, including food security, housing security, income, and overall wellbeing.** Given the results we plan to explore options for program development at Millersville University to best meet the needs of all our students.

Please consider participating in our study. Your participation is voluntary. Total time to complete the survey is approximately 15 minutes. If you choose to participate please click the link:
