

Millersville University (Study Abroad Ancient Maya Culture & Community Service) and Maya Exploration Center (MEC) are teaming up to help students in the village of Ek Balam, Yucatan, Mexico. Their high school has a total of 19 students (see picture) and our goal is to get internet capable i-Pads into each of their hands.

MEC has already committed to providing the school with internet equipment and service for the first year. Now we need donations of gently used, internet capable iPads.

If your older model is just sitting around collecting dust, will you consider donating it so we can give it to the Ek Balam high school?

If you can help our effort before we head down on May 18th, please contact Dr. Ximena Catepillán at ximena.catepillan@millersville.edu Phone: 717-871-7307
