

## Facilities Management Department Notice Various Sidewalk Closures

### Description:

*Summer is an ideal time to complete work on campus for the upcoming Fall semester. Several sidewalks are being repaired to eliminate tripping hazards for our students, faculty, staff and visitor.*

### Event Timeframe:

<i>Beginning Date:</i>	<i>Saturday, June 28, 2019</i>	<i>6:00 a.m.</i>
<i>Ending Date:</i>	<i>Friday, July 19, 2019</i>	<i>6:00 p.m.</i>

### Campus Impact:

*Several sidewalks will be closed entirely or intermittently during this work. The deteriorated surfaces will be removed, formwork will be installed and new concrete will be placed.*

*The highest volume walkway is the sidewalk between Dilworth Building and Biemesderfer Executive Center. The deteriorated brick edging is being replaced with stamped concrete. The center of this walkway will remain open except when the new concrete is placed. Alternate routes would be the sidewalk by Wickersham Hall and Dilworth Building then along the pond. The sidewalk along George Street will remain open for the entire project.*

*We anticipate the work being completed prior to the date above but wanted to factor in any rain delays.*

*If you have any question on the other locations, please contact us at x7875.*

*"We are sorry for any inconveniences that this project/event may cause. Please contact Facilities Management at x7875 for additional information. Thank you for your cooperation and patience."*
