Re: Kutztown Publishing has merged with Spectrum Printing.

We wanted to make you aware of a recent announcement from the printer that we use for business cards:

We are pleased to announce that Kutztown Publishing has merged the business with Spectrum Printing effective immediately. Rob and Dave will move with the business to Spectrum thereby ensuring continuity of account service and information. This will create a stronger and more efficient company resulting in an improved supplier for print for all our customers.

This merger will accommodate our Kutztown customers and increase the print options for our customers as well.
