CENTER FOR ACADEMIC EXCELLENCE

IT Session - Sway Presentations in Office 365:
Visual, Creative, Interactive

Marie Firestone, Instructional Support Specialist,
Online Programs

December 3, 2019
Tuesday Common Hour (12:05 – 1:10 PM)
McNairy 502

As part of Office 365 suite of apps, Millersville students, staff and faculty can now use Sway to create web based presentations that are dynamic, interactive and accessible.

Sway makes it easy to combine text, images and media content, even allowing for inclusion of web content from sites like Wikipedia, Youtube, and Flickr. In this session, Marie will showcase the basics of how to create a Sway and provide examples of how a Sway can be used for both face to face and online content creation and presentation. Note: This is a repeat of a session that was offered on November 5.

If you have any questions about events, check out the CAE website at www.millersville.edu/cae or email oliver.dreon@millersville.edu.
