

# Your Feedback Matters!!

The 80-member All University Council (AUC), in collaboration with the Strategic Advisory Council, has crafted updated mission and vision statements as part of our 2025 strategic planning process this fall. The AUC needs your valuable input on our draft mission and vision statements through a seven-item survey. The updated statements are meant to complement each other and be supported by our EPPIIC values, so they are presented together for you. Our EPPIIC values will not be changed through this planning process.

- *Proposed Mission Statement*: **Millersville University is a public, comprehensive liberal arts-based institution with the mission to provide a high quality, relevant education at an exceptional value, inspiring learners to excel and to positively impact local and global communities.**
- *Proposed Vision Statement*: **Get inspired, be transformed, learn to change the world.**
- *EPPIIC Values*: **Exploration • Professionalism • Public Mission • Inclusion • Integrity • Compassion**

Our current mission and vision statements may be found [HERE](#). Please take a few minutes to review the proposed mission and vision statements and let us know your opinion of each statement in the survey below.

This survey is voluntary and anonymous.
