Facilities Management Department Notice
East Frederick Street Partial Closure

**Description:**

*UGI is replacing a natural gas line crossing East Frederick Street. This work will impact both vehicle and pedestrian traffic along East Frederick Street.*

*UGI will have flaggers on site to direct traffic accordingly. Steel plates will be used to allow traffic flow along East Frederick Street.*

**Event Timeframe:**

- **Beginning Date:** Monday, March 2, 2020 9:00 a.m.
- **Ending Date:** Tuesday, March 3, 2020 4:30 p.m.
- **Wednesday, March 4, 2020**

**Campus Impact:**

*Several parking spaces along East Frederick Street will be closed to facilitate the excavation.*

*Steel plates will be placed in the street to allow vehicle traffic during this line replacement. Intermittent closures will be needed to reposition the steel plates.*

*When UGI transfers service to the new line, natural gas will be suspended to Breidenstine Hall for one-two hours. We anticipate this outage to be from 0900-1100 on Wednesday.*

*Once repairs are completed, UGI will purge the line. Anyone nearby may smell natural gas which is normal for this type of repair. UGI has all the safety precautions in place to perform this work.*
“We are sorry for any inconveniences that this project/event may cause. Please contact Facilities Management at x7875 for additional information. Thank you for your cooperation and patience.”
