**RE: Information on Course Schedule and Campus Housing**

Dear Millersville Student,

We are working diligently to welcome you back to campus in the fall to begin a new academic year. As you know, Millersville University will offer fall classes in-person, remotely and using a hybrid modality. For example, a vast majority of experiential courses such as labs, clinical placements, field placements, performing arts, studio courses and student teaching assignments will be offered in-person. Additionally, a significant number of first-year courses will be delivered in a face-to-face or hybrid modality. Approximately 60% of all courses will be taught using a remote learning modality.

Your revised class schedule will be ready for your review tomorrow morning. I urge you to carefully review your individual schedule and contact your academic advisor if you need any assistance in making changes to your schedule. Please pay particular attention to any synchronous activity in your online or hybrid classes. If you need assistance in finding your academic advisor contact information, it can be found in D2L or contact your department chair.

Additionally, if you planned on living in The Villages, Shenks Hall or Reighard Hall, the University is providing you with the opportunity to reconsider for the Fall 2020 Semester. We recognize this is an unprecedented time and that you may be reconsidering your housing options as you review your course schedule.

To cancel your housing contract for the Fall 2020 Semester, please log into your MAX account and select "Student Services-Housing and Dining-My Housing-Applications-Fall 2020 Housing Cancellation Request" by 4:00 p.m., Thursday, July 30. Students may cancel due to their class schedule or own personal preference.

Our faculty and staff have worked hard over the past few months to prepare for the fall semester in order to provide you the highest quality instruction that you deserve and expect from Millersville University while ensuring your health and safety in returning to campus. These steps will allow us to decrease the density of individuals on campus in order to mitigate the spread of coronavirus and provide the safest teaching and learning environment possible, under difficult conditions caused by the pandemic.

We wish you a safe and healthy summer and are eagerly awaiting seeing you in the fall.

Stay Well,

*Vilas A. Prabhu*

Provost and Vice President  
for Academic Affairs
