

2020 MU VIRTUAL BUDDIES

Millersville University recognizes that these are unprecedented times, and that families all over the globe are struggling to make accommodations for their children. We have established a virtual buddy program to assist families through some of these needs. We will do our best to match students based on ability, need, interests and support requested. We hope to assist you and share some of our Marauder Pride with your family.

- Please identify your remote support needs using this [clickable form](#):

We have many MU students who have completed their clearances and are excited to be **Virtual Buddies**.

- We also need to keep the health and safety of our University Community in mind and mitigate risk. Therefore, if you are seeking in-home support or opportunities, please consider www.care.com or www.quadjobs.com. These are platforms that students and families are aware of and use regularly. **Please note** however, that MU doesn't vet these opportunities, their legitimacy, social distancing capabilities or safety for your family, or our University students/Community.

MU students looking to be paired up with a **Virtual Buddy**:

Please register here: [Form for MU student to fill out](#).

Should you be willing and able to fill a greater need, you may also wish to log into Quadjobs.com or Care.com to look for additional local opportunities.
