

2020 MU VIRTUAL BUDDIES

Millersville University recognizes that these are unprecedented times, and that families all over the globe are struggling to make accommodations for their children. We have established a virtual buddy program to assist families through some of these needs. We will do our best to match students based on ability, need, interests and support requested. We hope you will consider becoming a Virtual Buddy, and helping out our neighbors!

We also need to keep the health and safety of our University Community in mind and mitigate risk. Therefore, if you are seeking in-home caregiving or F2F opportunities, please consider www.care.com or www.quadjobs.com. These are platforms that families are aware of and use regularly. **Please note:** however, that MU doesn't vet these opportunities, their legitimacy, social distancing capabilities or safety for you, your family, or our University Community.

Students looking to be paired up with a
Virtual Buddy:
