

Millersville University

Online Professional Development Center

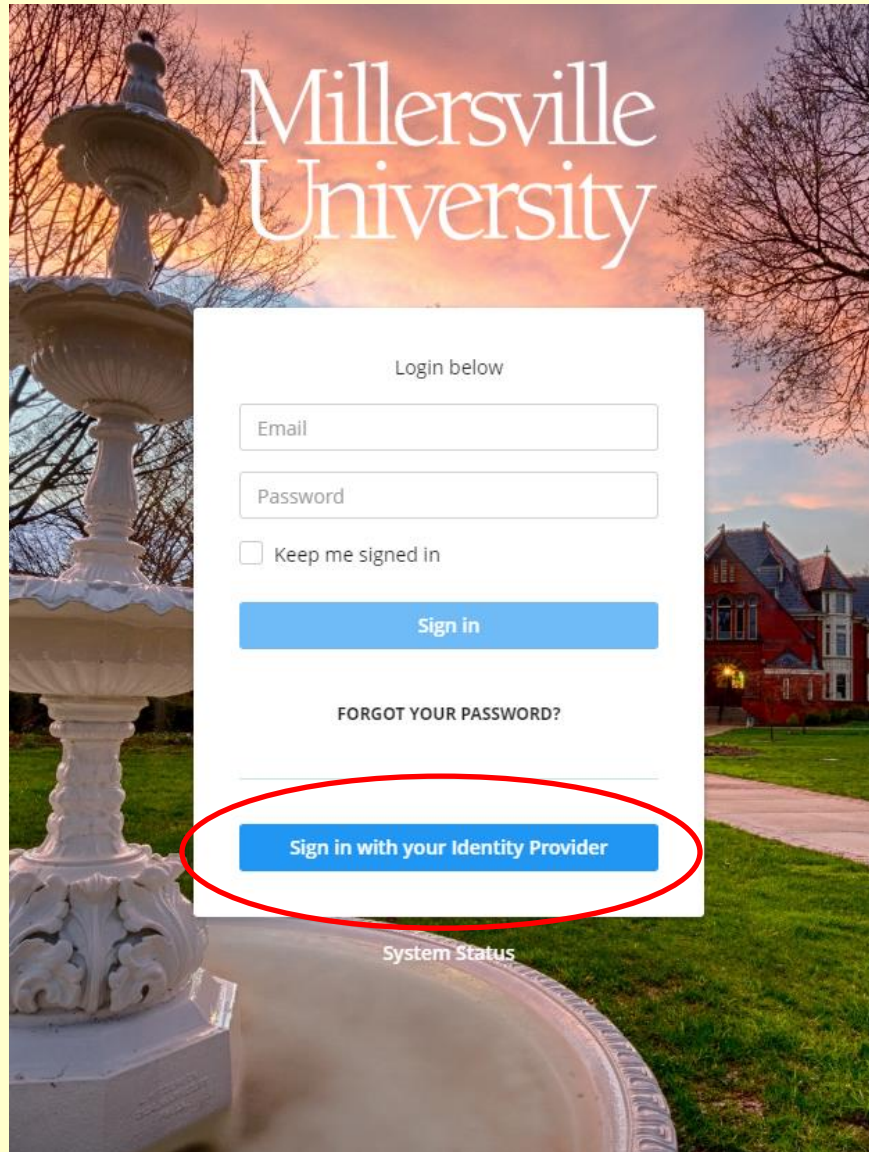

I am pleased to share that the Office of Human Resources has transitioned our Skillsoft online professional development program portal to a new **Millersville University Online Professional Development Center**. This transition provides single sign-on access to online learning programs for all faculty and staff. The link to access this portal is <https://millersville.mygo1.com/p/#/access/signin>. Please bookmark this page for easy future reference. **Important: To sign in, simply select the “Sign In With Your Identity Provider” box.**

In combination with Skillsoft professional development programs, we have enhanced our capability to deliver educational/informational internal communications to our employees. The first of these offerings is a “*Millersville University Faculty & Staff Return to Campus Welcome Message Summer 2020*” that was created internally in an effort to support our planned upcoming safe return to campus. You will receive an email in the coming days notifying you of your assignment to view this brief message. **All employees are required to view the video on or before August 17, 2020.** In a time when circumstances are everchanging, one thing you can count on is that our colleagues in Safety, Health Services, Facilities, and countless other areas are working hard to develop strategies for maintaining a safe campus environment.

Soon you will also find the “*Drug Free Schools and Campuses Notice*” posted on this platform. Employees who have not yet acknowledged reading this document in 2020 will be directed to do so via similar messaging. This notice acknowledgement is one of three requirements of our annual compliance training year.

That’s quite a bit of information, so please don’t hesitate to reach out to me at wendy.bowersox@millersville.edu if you have questions. In the meantime, please explore the many courses available within the platform by using the “*Search*” box at the top left portion of the screen, or select “*Explore*” on the top menu bar. Happy growing!

To Login, Select “Sign in with your Identity Provider”

To Search Available Programs, Use “Search” Box or Select “Explore”
