COVID Updates

COVID SCREENING ON THE LIVESAFE APP

Use the LiveSafe App every day to do your COVID screening, even if you're not coming to campus. We will be using the app when we all return, so it's good to get in the habit now. Please answer the questions truthfully, it will help keep all of us as safe as possible.

To access COVID screening on the LiveSafe:

Download the iOS app in the Apple App Store by clicking here:

<https://apps.apple.com/us/app/livesafe/id653666211>

Download the Android app in the Google Play store by clicking

here: https://play.google.com/store/apps/details?id=com.livesafe.activities&hl=en_US

Access it on the web by clicking here: <https://livesafe.jotform.com/202265356232853>

If your answer to any of the questions is "yes," do *not* report to class, but do contact Health Services at 717-871-5250 or hservices@millersville.edu.

Many of the symptoms of COVID-19 match closely with those from seasonal allergies or the common cold. If you do not feel well, please do not come to campus. This will ensure the safety of our community. Always wear a mask and follow the recommended social distancing guidelines.

COVID UPDATES ON WEBSITE

Millersville University keeps their website updated with the latest [COVID UPDATES](#).

This includes a [COVID-19 Dashboard](#) that lists active and cumulative cases.

TEMPERATURE CHECKS

Six temperature scan kiosks for use by students and staff, have been purchased and will be placed in academic buildings across campus. Temperature check is one part of the COVID screening. Temperature >100.4 F should be reported. Other symptoms include: shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, diarrhea.

Questions?

Email the Incident Management Team at imt@millersville.edu.
