

## Important Update for Teacher Education Students

Policy Change applying to Teacher Education Students who have not yet earned APS status, who plan to apply for APS before June 30, 2021:

Acting PA Secretary of Education Noe Ortega has issued an order waiving the basic skills testing requirements for teacher candidates who apply for APS before June 30, 2021. Candidates must have **all other APS requirements satisfied to be eligible for the waiver**. Candidates admitted under this waiver will **not** need to “back track” in order to take these basic skills tests for the issuance of their Instructional I PA teaching certification.
